EDUCATION

BS Computer Science (Current): Iqra University

Intermediate (2023): MYSA Public School & College

Matriculation (2020): MYSA Public School & College

SKILLS

Technical Skills:

HTML, CSS, JavaScript, Bootstrap, jQuery, C, C++, Java, .NET, SQL, Flutter, Dart

Professional Skills:

Creativity, Teamwork, Communication, Hard Work

PROJECTS

HemaPredict — Health Analytics Platform

Live Link: hemapredict.azurewebsites.net/login.html

- Built an ML-powered web application for hematological assessment and donor eligibility diagnostics.
- Implemented secure user session management and dynamic blood group compatibility visualization.
- Designed a clean, professional UI optimized for real-time health data analysis.

Blood Bank Network Portal | .NET Core MVC, C#, Azure SQL, Entity Framework, Bootstrap, JS

Live Link: web-project.azurewebsites.net/ Credentials: admin@gmail.com password: 123456

- Built a responsive management portal to coordinate operations between regional blood banks, donors, and hospitals.
- Structured tables to track live blood stock, complete donor profiles, and emergency requests.
- Developed role-based dashboards and automated tracking for patient blood requests (Pending/Approved).

Desktop Banking Application | Java, JavaFX Scene Builder

- Engineered a fully functional, end-to-end desktop software solution built entirely from scratch using Java core fundamentals.
- Designed an intuitive, user-friendly graphical UI layout leveraging JavaFX Scene Builder to maximize interface responsiveness.
- Structured essential financial operations including transaction history, balance tracking, and mock secure validation protocols.

Additional open-source utilities and academic development repositories are actively hosted on my GitHub profile.

COURSES AND CERTIFICATION

IBM iOS and Android Mobile App Developer -- **AshreiTech Academy** provided by Coursera

Web Development with php – **Aptech Metro Star Gate**
